

Quality Policy

At Wallace Stone LLP we strive to be the leading provider in our field of civil engineering consultancy services.

We accomplish this through our focus on the evolving requirements of our customers, through consistent compliance of the ISO 9001:2015 standard and all relevant statutory and regulatory requirements.

Wallace Stone LLP is also committed to continually improving the effectiveness of its Management System and therefore has established objectives and targets which are communicated throughout the organisation, reviewed regularly and then reported at least annually at Management Review.

The above policy is communicated, understood and applied within the organisation, is available to interested parties, as appropriate and is also reviewed at Management Review Meetings to ensure its continuing suitability.
